Toledo, Ohio 43604

Lucas County Data Processing Board:

I am respectfully requesting that the item listed below be included on your June 5, 2014 agenda:

The Lucas County Department of Job & Family Services (LCDJFS) is requesting the approval for enhanced connectivity between Lucas County Juvenile Court and LCDJFS. Currently, Lucas County Child Support Enforcement Agency has an office located at the Juvenile Court, but only has limited access to the LCDJFS network. Attached is a plan drafted by Jason Gears to use new equipment in conjunction with connections currently in place to resolve this issue. Once in place, the workers that use the CSEA offices at the Juvenile Court will be able to access all files, and document imaging that currently resides on the LCDJFS network.

If you have any questions or concerns please contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Jim Roberts".

Jim Roberts
Information Services Manager

cc. Michelle Niedermier

Proposed CSEA Site VPN Design
For use at JJC to allow access to the CSEA network from their PCs and printers.
